Creative Industries and Education	Professor Misha Myers		Head of School of Stage and Screen and Professor of Contemporary Performance	University of Greenwich	Greenwich	www.gre.ac.uk/	https://www.linkedin.com/in/misha-myers-b098b3128/?originalSubdomain=au	Misha Myers is the Head of School of Stage and Screen and Professor of Contemporary Performance at University of Greenwich. She is an award-winning pioneer of integrations of digital technologies for creative arts, research and education. She has 20 years' experience facilitating arts-based research projects that involve participants as co-researchers, co-producers of knowledge and authors of their own stories. Using original arts-based mixed methods combining walking, mapping and storying place integrated with locative, mobile and immersive technologies, she has worked in diverse contexts internationally to support people's place-making strategies, sense of belonging, connection and adaptation to place in the context of the digital age, mass migration and climate change. She received an AOL Innovation in Community Award for the multimedia artwork 'way from home' (2004), which she co-designed with refugee and asylum seeker support organisation Refugees First. She first began exploring the use of mobile technologies in her site-specific performance 'Yodel Rodeo' commissioned for the SpaceX/Relational Homelands exhibition (2004). As an Arts Humanities Research Council UnBox Fellow in India (2013-2014), she worked with NGO Digital Green and an inter-disciplinary team of academics and practitioners from India and UK to co-design the physical and digital game 'Bumper Crop', which integrated gamification with farmers' community videos. She is a co-creator of 'The Walking Library' project featured on BBC Radio 4's 'Walking Women' programme and first initiated in 2012. She has worked with theatre companies internationally experimenting with the combination of digital platforms and live performance including collaboration with WildWorks Theatre company (UK) and more recently, in Australia, as part of an inter-disciplinary team with Deakin Motion Lab and Malthouse Theatre creating a game engine version of the live immersive theatre performance 'Because the Night' (2022). Sustainability	Rick Wheal		Consultant	Self-employed	agile		https://uk.linkedin.com/in/rick-wheal-853a1312	Rick has been a senior director in a number of companies leading sustainability advice on the design of buildings and the spaces in between. Passionate about One Planet living, he has been a key player in designing: the first ultra low energy school in the UK; ensured that the 2012 Olympic legacy site enhances well-being and inclusion, and; also buildings such as the Shard, The Cheesegrater and the British Museum. He is an engineer at heart but believes everyone should be safe, well-fed, educated and healthy. Come and ask me anything regarding climate change, environmental science and engineering.	DOWNSTAIRS
Technology Security	Fiona Strens		Professor of Practice, Security & Resilience	University of Strathclyde	Glasgow/London/home	www.Strath.ac.uk	https://www.linkedin.com/in/fiona-strens-a386952?	I have had a career across strategy, technology and security. I have a Computer Sciences degree from Cambridge and spent the first 10 years of my working life in the Ministry of Defence doing everything from working on policy with Ministers to coding neural networks for advanced military systems. I then moved into consultancy, focused on technology and security. In 2009 I co-founded a technology company. We used AI to analyse the movement of people in crowded places helping airports to keep people moving and assuring crowd safety at big events. The last 4 years I've enjoyed being a 'professor of practice' focused on security and resilience in a university and I'm a non executive director at Ordnance Survey too. My career has been anchored around technology and security but I've worked in all sorts of roles and organisations. Variety is the spice of life!	DOWNSTAIRS
